Office of York Enterprise, Yorkville, N. Y., Aug. 14, '91.
Atlantic Electrohouse, Gentlemen:—For the past few years my wife has been a sufferer from dyspepsia. She completely lost her appetite, and was unable to eat. Her nervous system was almost entirely destroyed, and the slightest sound would throw her into a nervous spasm, which would last for hours. Medical skill failed to bring any relief.

Letter from Faugner

[Correspondence of the Alexandria Gazette.]
MARSHALL, Nov. 23, 1891.—With the exception of the late frost, a little snow and freeze, nature here with its lovely Indian summer has been, up to the present time, delightful. With neighboring communities we are not so much cases of typhoid fever have prevailed, proving the fact as stated by the editor of the Journal of the American Medical Association that now and then occasional waves of zymotic influence spreading over our land, a true epidemic, affecting children with the scarlet fever and diphtheria and adults with influenza and fever in some form, perhaps due to atmospheric causes or the use of polluted water or contaminated milk.

The corn crop now being gathered was never larger.

Our roads for weeks past have been through with immense drives of stock cattle which are readily sold to small and larger dealers. Grazing in upper Fauquier of cattle and hogs has become most profitable industry.

The friends of Colonel Mosby (who was accompanied by his two daughters, on their way to Oak Hill and to visit the home of Major T. R. Foster) were pleased to see him once more.

As usual when the Christmas holidays are approaching, the huge flocks of turkeys sent off by the cars to various markets and many presents to friends in the various cities. Quite a number of this splendid American turkey wild and have been shot by expert sportsmen on the Cabbier, or Free State Rappahannock range of the Blue Ridge Mountains.

Cards for the marriage of Mr. Richard Carter Scott to Miss Lucy May Blair, of Richmond, and of Mr. J. H. Griggs to Miss Edith Davis, of Bath, have been received by their numerous friends in our neighborhood.

As usual Thanksgiving services will be held on Thursday, the 26th, by Dr. Grammer at the Episcopal church.

Light Houses.

The annual report of the lighthouse board was submitted to the Secretary of the Treasury Monday. The work done in the fifth district, including Maryland and Virginia, is reviewed at length. At Hog Island, Va., arrangements have been made for the purchase of land for a wharf and roadway. The former recommendation for the change of this light from fourth order to first order is renewed. There is an unlighted gap between this and Assateague light on the north and Cape Charles on the south of about five and three miles, respectively, which a first order light on a tower 150 feet high would illuminate. The estimated cost of the change would be \$125,000. At Cape Charles light, the jetties and shore protection were completed, test borings for the site of the new tower have been made and negotiations are in progress for the purchase of the land. At O Point Comfort, entrance to Hampton Roads, Va., the dwelling has been rebuilt and new out buildings have been built. The lighthouse at Newport News middle ground, Hampton Roads, has been completed and the light and fog bell established. It is recommended that public lights be substituted for the Dollar's Point and Hog Island wharf, James River, at a cost of \$25,000. At Page Rock, York river, Va., borings were made to ascertain the character of the proposed site for the light-house provided for by the last Congress. The plans for a screw-pile light-house at Maryland Point, Potomac river, have been approved and the work is ready to be constructed for. The construction of a new light-house on the shoal off Point No. 1, in Chesapeake Bay, is recommended. There is an unlighted stretch of about thirty miles between the Cape Point and Smith Point lights which this light would break. For a part of this distance vessels are now without a guide, and heavy-draft vessels might be carried on dangerous shoals. The recommendation is made in the interest of vessels of this class trading to Baltimore. The estimated cost of this light is \$35,000. For a light on Swan Point bar, Md., an estimate of \$50,000 is submitted. Swan Point is a very important turning point for vessels navigating the bay, and a light on the extreme end of the bar would be of great use to vessels navigating the bay, whether bound to Baltimore or other points.
